Certificate of product qualification

to use in organic farming

issued for: Omya Sp. z o.o. ul. Krucza 16/22, 00-526 Warsaw

Upon the request of the manufacturer dated 28 December 2017, in accordance with the Regulation of Minister of Agriculture and Rural Development of 2 March 2010 (Journal of Laws no. 54, item 326), the EC FERTILISER, liming material under the name of **Omya Calciprill® 110-KR**, type: chalk, fine-grained, type symbol: G.I.5b), has been qualified by the Institute of Soil Science and Plant Cultivation State Research Institute in Puławy to be used in organic farming.

The product shall be included in the list of fertilisers and soil conditioners, qualified to be used in organic farming under no. **NE/390/2018.**

The certificate is not a guarantee of product value in use. The following entity is responsible for the product quality: Omya Sp. z o.o. ul. Krucza 16/22, 00-526 Warsaw.

The certificate expires on the date the product manufacture technology is changed (ingredients or raw material source), which may significantly affect its characteristics.

The manufacturer is obliged to immediately inform the Institute of Soil Science and Plant Cultivation State Research Institute in Puławy about such changes.

In organic production, agricultural limestone may be used in doses up to 2 t of CaO/ha in the case of light soil and up to 3.0 t CaO/ha in the case of medium and heavy soil.
